February 2012

## President's Message

Looks like we are getting off to a good start for 2012. I foresee that we are going to have a GREAT hamfest this year. At this time everything is falling into place, thanks to our Assistant Hamfest Chairman, Glen Thibodeaux KF5FNP. Glen has really been busy making phone calls, e-mails, solicitation for vendor participation, donations for door prizes and any other avenues that can enhance our 52<sup>nd</sup> AARA 2012 Hamfest.

I think Glen and I have learned a few things getting this hamfest on the road, one thing is to take the pre-registration forms off the Hamfest website until next year, some people were using the 2011 forms, another was to delete the previous "Electronic Distribution" list and start with a new one. I found that many had changed e-mails or became SK's over the last several years. There are some other improvements that can be made for next year's Hamfest.

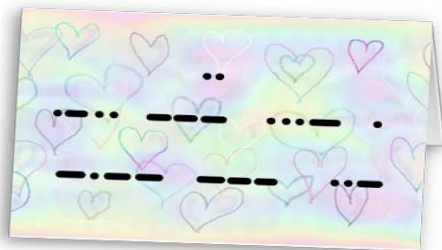

The February 2<sup>nd</sup> General Meeting will consist of election of officers for the year 2012-2013. The Nomination Committee Chairman Larry LeBlanc KE5KJD presented the committee's proposed slate of officers at the January meeting. They are: President - Herman Campbell KN5GRK, V. President - Paul Scallan K5VSH, Treasurer - Joy Breaux, Secretary - Sandra LeBlanc KE5KJF, Board Members - Glen Thibodeaux KF5FNP & Larry LeBlanc KE5KJD. Nominations will be taken from the floor and elections held. If Herman should be elected for a second term, a third board member will need to be elected. The newly elected officers will be installed at the March General Meeting which will be held on the Saturday after the AARA Hamfest (March 17). Remember, you must be a paid up member in order to vote or run for office. I would like to see more members get involved in our club. Get Involved! Take some of the work load off the older guys and gals and get some experience of being part of our great hobby.

Herman Campbell KN5GRK  
AARA President

## SkyWarn Net Activated

On the afternoon and early evening of January 25, 2012, a batch of severe weather approached Lafayette Parish from the West with some thunderstorm tops to 50,000'.

Ed Roy WA5TNK, Lafayette Parish EC, brought up the SkyWarn Net at 1642 hrs local time on the 145.37 repeater, taking check-ins from numerous local hams and asking for observations.

Numerous severe thunderstorm warning were issued as the line moved eastward at 15-18 mph. Some thunderstorms were tracking up the line toward the northeast at above 60 mph.

A Tornado Watch was issued for all of SW Louisiana as a short wave rotated through the area. (until 0300Z).

The system moved through the Acadiana area producing reported wind gusts of 10 - 30 mph, lightning, and heavy rain. No major injuries or damage reported. Around 2035 the system had passed thru the Acadiana area and the net closed at 2045.

Observers were: Ed WA5TNK, Mel WD5CAE, Herman KN5GRK, Glen KF5FNP, Calvin KD5JCT, Dane W5DL, Grant KF5CNU, Nick KE5MWX, Paula KF5CNS, Terry N5QWA, Kris KD5QYV, Chuck KE5ZZM, Boisy KF5HEL, Charlie KI5XP, Keith WA5ISZ, Maureena KB5SMX, and Lance KF5NZB. GREAT JOB!

**W5EXI EchoLink**

As you may know, we have had a few problems with the W5EXI EchoLink Link. Sometimes it will drop the link to the 146.820 repeater. The problems seem to come from the outdated computer located in Nick's office. It is running Windows 2000, a slow processor, and light on the RAM.

Well, thanks to Charlie Morrison KI5XP, the EchoLink will get a updated computer running Windows XP, more RAM and a faster processor. This should eliminate a lot of the down time. Hopefully the link will be up by the time you read this newsletter.

Eventually, work on the 147.040 site in Dusan, LA will be finished and the W5EXI EchoLink will be returned to that repeater. I have not heard from Karl Fontenot on how the site is shaping up at this time but hopefully it will be in the near future.
